

Collectible auto enthusiasts want specialized coverages that aren't always available under other policies – coverages that are as special as their cars.

## HIGHLIGHTS THAT MAKE US STAND OUT:

### Agreed Value Policy

Protects the current market value of the insured vehicle in the event of physical damage or a total loss. The producer and the insured determine the agreed value, representing the current market value of the vehicle. In the event of a covered total loss, the insured receives the full agreed amount less any applicable deductible.

### Customized Policies

Allows for a choice of coverage to best suit the policyholder's individual situation. Coverage options include: Towing and Roadside Assistance, Full Glass coverage, Automobilia coverage, Car Covers and Bras, Limited Trailer and Paddock coverage and more.

### No Attendance Clause

Owners who want to walk around at car shows and enjoy the other cars on display are still insured as attendance at the insured vehicle is not required.

### Spare Parts Coverage

Up to \$750 in spare parts is covered at no additional cost.

### Low Premiums

A specialized insurance policy can save hundreds of dollars and hassle. Customers can reap the rewards of a program designed with the true car enthusiast in mind, and enjoy more features customized specifically for collectible car owners than a standard auto policy.

### Risk Groups

The Collectible Auto program is for cars that are used for hobby purposes and not everyday use. We have two specific programs: the **Antique and Classic** program and the **Modified** program. Antique and Classic vehicles are 19-years old or older and still in the original (or original restored) condition. The Modified category includes any vehicle modified from its original condition.

- Antiques
- Modifieds
- Muscle Cars
- Customs
- Exotics
- Kit Cars
- Replicas
- Classics
- Woodies
- Hot Rods
- Foreign and American Sports

The J.C. Taylor Company is the managing general underwriter for the Foremost Collectible Auto program.
